Rand McNally IntelliRoute® TND™ Truck GPS Now Available in Canada

Award-winning devices distributed via SYNEX Canada Ltd.

Skokie, Ill., May 24, 2011 – As of this month, Rand McNally now offers its line of award-winning truck GPS devices for sale throughout Canada. [The IntelliRoute® TND™](#) line is distributed in Canada exclusively by SYNEX Canada Limited.

“Professional drivers in Canada will now be able to access our products at home, rather than coming stateside to make purchases. The IntelliRoute® TND™ has been designed for the North American market with full translation into French and Spanish. In addition, we have features that uniquely address driver needs in Canada, such as the ability to warn of border crossings ahead,” explained Dave Muscatel, CEO of Rand McNally.

The IntelliRoute® TND™ line was built from the ground up for professional drivers. Beginning with award-winning [truck-specific navigation](#) from Rand McNally, the units feature a speaker and mounting device designed for truck use, an extra-long power cable, and a suite of specialized Trucker Business Tools to assist drivers in managing the business aspects of trucking. Many of the features in the IntelliRoute® TND™ 510 and 710 units were developed as a direct result of tens of thousands of comments from “Tell Rand,” a unique on-device feature that provides continuous feedback to Rand McNally from the driver community.

The units will first be available at Traction, Heavy Duty Parts stores, Lordco – Auto Parts and at Amazon.ca. For more information, call (514) 683-1771 ext. 8935.
